

**The Georgia Feed and Grain Association is a non-profit trade association representing all areas of the feed and grain business in Georgia. The association was organized in the 1970s by the merger of the Georgia Feed Association and Georgia Grain Association.**

**Our organization serves to protect the interests of Agri-business enterprises in grain and feed as well as the many related industries. The Georgia Feed and Grain Association seeks to encourage agricultural production in Georgia and the Southeast as well as agricultural plant location and expansion. The association promotes agricultural education in Georgia by awarding scholarships to deserving college students.**

**The association monitors legislative actions at the state and federal level affecting feed and grain activities. Through active membership in the American Feed Industry Association and National Grain and Feed Association, the Georgia Feed and Grain Association attempts to keep up and report new developments and information to our membership.**
